

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning on page 3, line 1 of the specification with the following paragraph:

--The use of the juice of an unripe fruit ~~of~~ such as apples, pears, peaches or ~~the like~~ similar fruits belonging to the family *Rosaceae* has also been proposed as a hypotensor. Such juice contains, as polyphenols, caffeic acid and chlorogenic acid having angiotensin I converting enzyme (ACE) inhibitory action (Japaneses Patent Application Laid-Open (Kokai) No. Hei 8-258453 ~~8-219453~~).
